

SERVICE MODULE DEFINITIONS

- 1.1.1 The Customer may report break-fix faults against the Equipment located at the Service Address specified in the Scope of Service, by logging a Call. This can be achieved by telephone to our call centre number, by email or via the internet as directed by ECOM. On occasion ECOM may hand over direct support of the third party to the Customer, typically where it makes technical sense to do so.
- 1.1.9 Call volume and fair usage of the Service will be reviewed at the discretion of ECOM periodically.
- 1.1.10 Fair usage of the Service is calculated at ECOM's discretion. This generally forms a calculation that ascertains whether the Customer is operating within profitable boundaries of the Scope of Service and Service Charges of this Contract. It should be noted this is simply a trigger for ECOM to review profitability of this Contract internally and forms the basis of a potential conversation between ECOM and the Customer at a later stage.
- 1.1.11 The Customer will allow ECOM a permanent connection between the ECOM and Customer offices to allow support to be delivered by remote services.

- 1.2.3 The Customer acknowledges that there are potential limitations with the Equipment. Pro-active alerts generated by the software agents and / or probes cannot be specifically listed due to the limitations. A typical expectation of these alerts can be found using up to date ECOM marketing material.
- 1.2.4 An alert will be generated and a Call will be logged automatically or manually (whichever is deemed relevant by ECOM) into ECOM's appropriate call management software.
- 1.2.5 ECOM will attempt to respond to the Call and diagnose an alert within a response time appropriate to its nature. Critical alerts will be responded to within the Service Level Response Time period specified in the Scope of Service. High Availability Service; Service Availability taken over relevant calendar month and Service Credit (% of monthly recurring charge for that month). Over 99.99% = 0% (service level achieved), 99.50% - < 99.99% = 2%, 99.00% - < 99.50% = 4%, < 99.00% = 10%.

2.11.1.4 The credits set out in this section are based upon the cumulative elapsed time of unavailability in relation to a particular calendar month for the total number of servers hosted pursuant to provision of the Service (i.e. credits are not payable on an individual server basis).
